Splendid Program—Committee  
Named to Arrange Christ-  
mas Meeting.

An election of officers for the ensuing year, the appointing of a committee to arrange the Christmas reception and the rendition of a good program featured the meeting of the Central Alumni association at the Central High school auditorium Thursday evening.

The old officers, Ernest G. Taylor, president; William Bodo, vice-president; and Miss Ethel Kaulstien, secretary and treasurer, were re-elected. The committee named to handle the meeting during the Christmas holidays is as follows: William Bodo, chairman; Miss Anna Null, Miss Irene Weber, Robert Condra and Manly Watson, Miss Null and Mr. Condra were honor students of the 1913 graduating class.

The program consisted of a vocal solo, "When the Boys Come Home," by Miss Robbie Burns, a talented young singer; piano selections by Charles Her, one of Chattanooga's best known musicians, and short addresses by Mrs. L. M. Russell and Principal J. S. Ziegler. The participants were heartily applauded. Mr. Her was honored. He is a pianist of marked ability.

In his remarks the president of the association stated that it was gratifying to have the encouraging representation of the 1913 graduating class present, as the organization was going to count on members of this class for assistance in various ways.

Principal Ziegler said the school year that has just closed was the most successful the school has had so far; that the work and discipline were more satisfactory than ever before, and that there was a better feeling of fellowship among teachers and pupils.

Miss Margaret Nicholson, a loyal member of the alumni association, acted as the accompanist for Miss Burns and was at the piano when "America" was sung at the close of the meeting.

## FIRST DISTRICT KIDDIES TO FIND THEIR ORPHAN

New York Office Willing to  
Make Good Loss of Check  
En Route.

First District school, it is reported, will have the privilege of adopting another French orphan next year without payment in view of the check which was sent by them, which apparently reached headquarters, but for some unexplainable reason was never received. An investigation made by Mrs. James F. Finlay, local head of the order of Fatherless Children of France, and she was recently informed by the New York office that owing to the oversight in receiving for the check another orphan will be furnished the First District kiddies so that when they reassemble at school in the fall the little "ally" will be awaiting them somewhere in France.

Miss Josephine Crimmins, who has charge of the records, assured Mrs. Finlay that the lost check had passed through her office, having been presented by the principal, Miss Clara Carpenter, and had been duly credited on the books and sent to New York. While no receipt was forthcoming from New York, that office has announced its desire to give good by sending the name of an orphan, to the First District.

## BIG INCREASE SHOWN IN LAND IN CULTIVATION

Sixteen Hundred Farmers in  
Hamilton Respond to Call  
for Reports.

Out of the 1,600 farmers in Hamilton county approximately 65 per cent have already sent in their yearly reports regarding the number of acres cultivated. From all reports that have been coming in, W. M. Landess, county farm agent, states that the farms are doing better this year than ever before. The percentage of acreage cultivated is much larger than last year, according to the statements sent in by the farmers.

All farmers throughout the state are being requested to fill out blanks showing the number of acres they cultivated in 1917 and the number they have under cultivation this year. These reports are collected in this county by Mr. Landess and sent in to the department of agriculture at Nashville, where a complete record is being kept of all farms throughout the state. The last report made public by the department showed that Hamilton county was third from the lead, having an average of something like 56 per cent, for the number of farmers who had reported up to that time. Since that time Mr. Landess says that he is confident it has been brought up to 65 per cent, and that before the drive is closed Hamilton county will have the highest average in the state. He has on record 1,600 farmers in this county.

When the drive was first opened in April, the farmers did not show as much interest in it as had been anticipated and those in charge were somewhat discouraged. However, since that time the reports have been coming in much faster and conditions look brighter.

At the first part of the season a large number of the farmers experienced a heavy loss of farm hands as a result of the draft calls. The farmers are beginning to put in machinery to take the place of the men who have gone to the front. Mr. Landess states that in many cases the older men are operating their entire farms by machinery. The latest farm implements are substituted for the boys who are being taken to the front and in this way a large harvest is expected this season.
